Hightech Labs is pleased to announce that our efforts in the Cannabis Industry to go above and beyond to create clean, quality and environmentally friendly products has brought us to where we are today. Our Biddeford processing facility to have passed all the necessary testing and requirements to be eligible and granted the MOFGA Organic certification and product verification.

HIGHTECH Labs is a technology company based in Biddeford, Maine that specializes in Supercritical Fluid Extraction. HIGHTECH Labs offers extraction services for cannabis, hemp, natural products, and a range of other industries.

HIGHTECH Labs operations are based on cutting-edge technology sourced from its sister company HIGHTECH Extracts and its OEM supplier Separeco SRL. Together, we have worked to optimize the extraction equipment and the extraction process based on Supercritical CO<sub>2</sub> (scCO<sub>2</sub>), a non-toxic, generally accepted as safe solvent that is an inexpensive, renewable resource produced as a byproduct from a wide range of industrial processes.

HIGHTECH Labs has developed a proprietary, safe, sustainable scCO<sub>2</sub> extraction process that is highly efficient, flexible and able to be tuned to suit the needs of a variety of end use applications. HIGHTECH's process yields significantly more extract and a higher quality extract than competing processes allowing it to provide both high volumes of distillate as well as high value specialty extracts.

**Hightech Lab receives its MOFGA certification for *Scope of Organic Operation***
